PROFILE

Aspiring frontend developer | Incoming B.Tech CSE student with hands-on experience in building responsive, API-driven web applications. Founder of Code & Canvas – a personal dev & design brand. Eager to contribute to real-world projects, learn from industry professionals, and grow as a frontend developer.

PROJECTS

Weather App

APIs: OpenWeatherMap API

- A responsive weather application that displays real-time weather data. Features include city-based weather search, dynamic icons, temperature, and chances of precipitation.
- Live: <https://erleen0307.github.io/weather-app/>
- Code: [GitHub Repo](#)

Currency Converter

APIs: Exchange Rate API, REST Countries API

- A responsive web app to convert between 150+ currencies using real-time exchange rate APIs. Features include dark mode, currency swap, conversion rate display, and country flag rendering.
- Live: <https://erleen0307.github.io/currency-converter>
- Code: [GitHub Repo](#)

To-Do List App

- A feature-rich task management app allowing users to add, delete, and mark tasks as complete. Includes responsive layout, and local storage for persistent data.
- Live: <https://erleen0307.github.io/to-do-app-v2/>
- Code: [GitHub Repo](#)
